

Scene and Evidence Report — CR-2015

SCENE OF OFFENCE — OBSERVATION & PRESERVATION REPORT — SYNTHETIC

Report ID: E-0154 | Case: CR-2015/2026

Visited on: 2025-04-17 by Inspector Priya Sharma and crime scene team

Location: within METRO-CENTRAL jurisdiction, near the metropolitan corridor — exact geo-coordinates and photographs logged on the scene map.

Offence type: INSURANCE_FRAUD

Observations:

- Scene cordoned on arrival; access control established.
- Photographs and videography completed from four cardinal directions; scale markers placed where trace evidence was located.
- Physical evidence located, marked, photographed and lifted in accordance with standing procedure (fingerprint/trace, discarded items, tool marks where applicable).
- Vehicle approach/exit paths corroborated with later ANPR sightings for not identified.
- No unauthorised disturbance of the scene between incident and team arrival.

Items preserved and sealed for forensic analysis:

- * Trace / contact evidence (seal A)
- * Discarded articles (seal B)
- * Printed/electronic media where present (seal C)

Chain of custody: all items logged in the evidence register, signed over to the malkhana, and forwarded to the Forensic Science Laboratory, Kalina, under sealed cover.

Synthetic record — not a real scene.
