

## Investigation Progress Report - Synthetic

Case CASE\_0056 concerns a synthetic procurement fraud matter opened on 2023-10-09. The initial record names Rakesh Sharma as a person requiring enquiry. The early stage relied on witness information and routine records; the identity was not treated as conclusively established from name alone. A subscriber record associated with PHONE\_00166 and account ACCT\_00451 provided additional context. Vehicle VEH\_0001 was reviewed because it was observed during the relevant period. As the enquiry progressed after 2023-11-07, investigators compared telecom, financial and location records. The working hypothesis is deliberately stated as provisional: ordinary employment, family contact and legitimate commercial activity may explain some of the observed links. The case file should therefore distinguish corroborated observations from inference and should not treat network association as proof of culpability.

Progress entry 5: analysts recorded the current evidence state and the unresolved alternative explanations. Next action: verify the strongest independent source before expanding the working theory.
